

## Roll Up Banner Print Instructions

**Purpose:** Roll up banners can be a great addition to your My American Farm outreach efforts. Here are a few ideas for using your roll up banner!

Place behind a locking iPad stand to set up your own kiosk using the My American Farm app!

Place outside workshop or presentation rooms where you are featuring My American Farm.

Place in an animal or ag literacy area at a fair or festival.

**Printing:** Share this entire design file with your local or online printer when you are ready to order your roll up banner. A graphic designer or printer familiar with InDesign will be able to easily adjust formatting to fit your specific print needs.

Current Dimensions: 31.25" x 84.15"

Bleed: 0"

Orientation: Portrait

**Important note:** Many printers ask you to use their own template when printing. If you are not familiar with InDesign, connect with a local designer or ask the printer if they offer a service to adjust the size of this graphic to meet their template. Just remember, send them the entire file – not just the PDF! For consistency with this program and brand, please **do not alter** in any way the color, font, or logos.

**Vendors:** We encourage you to find a local or online printer that best fits your needs. Not sure where to start? You can begin by checking out [www.displays2go.com](http://www.displays2go.com) to explore roll up options.
